DOHIKU®

CATALOGUE OF HOOKS DOHIKU

2010

Alojz Donoval and Kamil Kubicek have been producing DOHIKU Barbless Hooks since 2006. Their friend, Igor Hribik, was the first to fish and to test the DOHIKU hooks, lending much important feedback on the quality of the hooks. Together these Slovak fly fishermen designed the hooks' distinctive shape and through their shared knowledge and experience created a unique, original barbless hook. Fly fishing is more than just fishing for these men; it is their way of life and passion. The hooks have evolved since the original design and this development continues with much enthusiasm. The DOHIKU Barbless Hooks are guaranteed by the company FLY DK, s.r.o. to be the original hook designs. In 2009 Milan Styk, a friend of the original partners, joined FLY DK to ensure the high quality of these unique hooks. Milan is a great fly fisherman as well as an excellent businessman and his skills have helped to promote the hooks. Now the DOHIKU Barbless Hooks are recognized throughout the world and this is due in part to the efforts of Milan Styk. Although the hooks have met some criticism, those who use the DOHIKU hooks have been very satisfied with their performance.

DOHIKU hooks are supplied by FLY DK, Ltd.
